PROFESSIONAL SUMMARY

Android Developer who ships full-cycle: Figma wireframe to working Kotlin/Java app with a Firebase backend. Built and shipped four Android applications over 18 months, including a two-app portfolio (FortQuest, CarrierCraft AI) covering authentication, real-time data sync, and AI-driven UX — backed by a Cloud Computing & Big Data diploma that brings a backend-systems perspective most Android developers don't have.

TECHNICAL SKILLS

- Mobile Development: Android Studio, Java, XML, Android SDK, Android Jetpack, Material Design
- UI/UX Design: Figma, User Interface Design, Wireframing, Responsive Layouts, Prototyping, Material Design 3
- Backend & Database: Supabase, Firebase (Authentication, Realtime Database), REST API Integration
- Cloud & Big Data: Cloud Computing Fundamentals, Big Data Infrastructure & Concepts
- Tools & Version Control: Git, GitHub, VS Code, Figma, Android Studio

KEY PROJECTS

FortQuest—Explore The Glory Of Ancients Forts Through Animation

- Built an Android learning app teaching Indian historical forts through animation and interactive media.
- Implemented Firebase Authentication and Realtime Database for secure cloud-side data sync across the app.
- Designed automated quizzes and native video views to drive user engagement and knowledge retention.

CarrierCraft AI — Smart Career Guidance & Resume Platform

- Designed and built an AI-driven resume builder and career guidance Android app supporting interview prep tracking, mock test evaluation, and career path recommendations.
- Architected a responsive multi-screen UI following clean architecture (MVVM-style separation of concerns) for smooth navigation across the app.
- Led the app through an internal testing and beta phase to validate core user flows before release.

IRCTC Application Redesign | UI/UX Enhancement

- Redesigned the official IRCTC mobile interface end-to-end using Figma and Material Design 3 guidelines.
- Optimized core booking flows and touch-target placement, streamlining the user journey to reduce drop-off points.

Nashik City Bus App Redesign | UI/UX Enhancement

- Redesigned the localized transit app layout to improve route visibility and live schedule presentation for Nashik city commuters.

WORK EXPERIENCE

Android Development Intern | *InnovationsHub, Nashik*

3 Months

- Fixed UI and layout bugs across multiple screens of an existing enterprise Android application, improving responsiveness across device sizes.
- Resolved front-end defects identified during QA review by refactoring legacy XML layouts and applying Android Jetpack components.
- Supported API backend integration by debugging data flow between the Android client and backend services, working directly with the engineering team.

EDUCATION

Diploma in Cloud Computing & Big Data

Padmashri Dr. Vitthalrao Vikhe Patil Institute of Technology and Engineering (Polytechnic)

Aggregate: 79.47% | Passing Year: 2026

Secondary School Certificate (10th SSC)

Score: 76.40% | Passing Year: 2023

CERTIFICATIONS

- Android Development Certification — Simplilearn
- Figma UI/UX Design Certification — Simplilearn
- Python Fundamentals and Programming — Gold Medal (90%)

CORE STRENGTHS

Soft Skills: Problem Solving, Teamwork, Interpersonal Communication, Leadership, Quick Learner, Adaptability

Languages: English, Marathi, Hindi
